

If you are convinced that innovation is the key to improving patients' lives

Then you're one of us.

Innovative medicines for people and animals have for more than 130 years been what the research-driven pharmaceutical company Boehringer Ingelheim stands for. Boehringer Ingelheim is one of the pharmaceutical industry's top 20 companies and to this day remains family-owned. Day by day, some 50,000 employees create value through innovation for the three business areas human pharmaceuticals, animal health and biopharmaceutical contract manufacturing. In 2016, Boehringer Ingelheim achieved net sales of around 15.9 billion euros. With more than three billion euros, R&D expenditure corresponds to 19.6 per cent of net sales.

Regulatory Intelligence Manager - 1713150

Opportunity for a Regulatory Affairs Professional

Are you passionate about designing and driving regulatory intelligence (RI) in a company that has been awarded best employer several times? You might join us at a perfect timing, which allows you to also create and shape structures and establish new processes. If you do like working in a team environment and having a strong focus on internal customers, you should definitely consider applying [for this role!](#)

Tasks & responsibilities

- Being Boehringer Ingelheim's expert for RI your objective is to create awareness, increase transparency and compliance within the organization on upcoming changes to global regulatory requirements related to e.g. quality, clinical and non-clinical safety, clinical development/operations and biopharmaceutical topics.
- Furthermore you ensure awareness within Global Regulatory Affairs on defined priority topics via appropriate communication routes and tools.
- You steer cross functional RI processes around commenting and impact analysis on an international level and provide advice on upcoming business critical regulatory questions in these areas.
- Moreover, you run various RI networks and interfaces to other Intelligence functions in global, regional and local Regulatory Affairs (and other business functions), supported by an appropriate RI communication platform on our intranet.

Requirements

- **Life science degree** (MSc, PhD or equivalent) in a **relevant field of study** (Pharmacy preferred)
- **Several years of experience** in the pharmaceutical industry in regulatory affairs, **with a strong emphasis on regulatory intelligence**
- Open minded personality with creativity, drive and initiative and the ability to work under pressure
- Strong communication and networking skills
- Fluent in English (written and spoken), German language skills would be advantageous
